Subject: RE: EPA's Comments on Proposed SCD for Schnitzer Investment-Doane Lake Property
Date: Wednesday, April 20, 2016 2:50:00 PM

Hi Dave-

This is agreeable. Thanks.

Eva

Subject: EPA's Comments on Proposed SCD for Schnitzer Investment-Doane Lake Property

Hi Eva,

As a follow up to Matt's meeting with you and Davis Zhen, Matt asked me send an email on current status of the Schnitzer-Doane Lake Property (SIC-Doane Lake Property) in regards to EPA's comments on DEQ's proposed SCD. General Comments 4 and 5 of EPA's Feb. 12, 2016 review comments address data gaps associated with the potential Outfall 22B stormwater system preferential pathway. The proposed source control decision is not associated with a broader remedial action/No Further Action (NFA) determination for the site. Currently the site has only been investigated for source control. In the future the site will need to complete a full Remedial Investigation/Feasibility Study and likely implement additional remedial action addressing the source area before receiving an NFA from DEQ. Additional groundwater assessment will be part of this process. That being said, DEQ wants to confirm that EPA is OK with DEQ finalizing the SCD without specifically addressing general comments 4 and 5 in lieu of EPA revising their Feb. 12, 2016 comment letter.

David Lacey
